

THE ORGANIZATION FOR SPECIAL EDUCATORS

Dear CARS+ Members,

CARS+ is happy to introduce the new Digital Edition of *The Special Educator* magazine starting with the summer issue and continuing with each quarterly issue. We have received several inquiries from members asking us why we are not “Going Green” with our news magazine. We heard you! We are excited to provide our membership with this convenient and portable format for you to receive the latest information on Special Education issues throughout the state as well as the most creative ideas for classroom and caseload management. Your summer issue will be arriving in your email inbox soon! Please contact your region director if you need to update your email address or if you have any questions regarding our transition to the more environmentally friendly format of our news magazine.

We appreciate your membership and sincerely hope the flexibility of this digital format is a benefit to you.

Happy Summer!

A handwritten signature in black ink, appearing to read "Dee Torrington", with a long, sweeping horizontal line extending to the right.

Dee Torrington
